EXPERIENCE

Logistics Head, Science and Technical Committee

July 2024 - PRESENT

As the Logistics Head of the Science and Technical Committee, I managed the planning and execution of events such as workshops, seminars, and conferences. My responsibilities included organizing schedules, coordinating resource procurement, and overseeing transportation, venue arrangements, and vendor negotiations to ensure efficient operations. I supervised inventory management, event setups, and budget optimization while maintaining detailed documentation and reports. I also developed contingency plans to address challenges and ensured seamless communication between teams and stakeholders. This role required excellent organizational, problem-solving, and leadership skills to align logistics with the committee's objectives successfully.

EDUCATION

Pandit Deendayal Energy University, Gandhinagar — *Computer Engineering*

NOV 2022- JULY 2026

CGPA : 7.6

The New Tulip International School, Ahmedabad — *XII CBSE*

MARCH 2022

PERCENTAGE : 90% (PCM)

PROJECTS

Enhancing Transport Efficiency through Predictive Maintenance:— *Python AI/ML*

https://github.com/modalgrasp/NASA-TURBOFAN-ENGINE.git

Operating System Algorithm Stimulator:
— *Web Development*
